Patriotic Classics

2015 | United States Mint Annual Uncirculated Dollar Coin Set

The 2015 United States Mint Annual Uncirculated Dollar Coin Set features $1 coins with an uncirculated finish bearing images of four of our nation's presidents bearing the "P" mint mark, one Native American $1 Coin bearing the "D" mint mark and one American Eagle Silver $1 Coin bearing the "W" mint mark. United States Mint uncirculated coins are struck on special presses using greater force than circulating coins, producing a sharp, intricately detailed image.

HARRY S. TRUMAN (1945-1953) was born in Lamar, Missouri, in 1884. After serving in the Missouri National Guard and the U.S. Army, he was elected county court judge before serving two terms in the U.S. Senate. Truman became vice president in 1945. In less than three months, he was thrust into the presidency following the sudden death of his predecessor. He told reporters, "I felt like the moon, the stars, and all the planets had fallen on me." Indeed, Truman faced critical foreign and domestic challenges during his presidency, including guiding the nation through the final stages of the war against Japan; avoiding a recession during the transition from war to peace; preventing the spread of communism; and addressing civil rights issues.

DWIGHT D. EISENHOWER (1953-1961) was born October 14, 1890, in Denison, Texas. After graduating from the U.S. Military Academy at West Point in 1915, he carved out a distinguished military career that included commanding the Allied Forces that landed in North Africa; serving as supreme commander of the troops invading France on D-Day; and serving as the first supreme commander of North Atlantic Treaty Organization forces. For a brief period, he was also president of Columbia University. Once Eisenhower retired from active service, he announced his candidacy for president. He won an impressive victory and took the oath of office on January 20, 1953. The next day he wrote: "My first day at the President's Desk. Plenty of worries and difficult problems. But such has been my portion for a long time - the result is that this just seems (today) like a continuation of all I've been doing since July 4! - even before that!" Eisenhower went on to serve two terms in office.

JOHN F. KENNEDY (1961-1963) was born in Brookline, Massachusetts, on May 29, 1917. He enrolled in Harvard in 1940, and during his senior year, wrote his thesis on Great Britain's lack of readiness for war with Germany, which was later published as "Why England Slept." Despite numerous health problems, Kennedy joined the U.S. Navy after graduation, and was sent to the South Pacific where he was injured when the patrol torpedo boat he commanded was rammed by an enemy warship. Despite his injuries, Kennedy guided the surviving crew members to safety and was awarded the Navy and Marine Corps Medals and a Purple Heart for his heroism. Following his military service, Kennedy worked as a reporter for a brief period before successfully running for the U.S. Congress, first serving in the House of Representatives (1947-1952) and then in the U.S. Senate (1953-1961). During his tenure in the Senate, while recuperating from back surgery, Kennedy penned his Pulitzer Prize-winning book, "Profiles in Courage." The Democratic Party nominated Kennedy as its candidate for president in 1960. He won the election by a small margin, becoming the youngest man elected president and the first Roman Catholic to hold the office. Kennedy was in office less than three years when he was struck down by an assassin's bullet on November 22, 1963.

LYNDON B. JOHNSON (1963-1969) was born August 27, 1908, in central Texas. He graduated from Southwest Texas State Teachers College (now Texas State University-San Marcos). Johnson successfully campaigned for the U.S. House of Representatives in 1937, where he served six years before moving on to serve 12 years in the U.S. Senate. Johnson became the nation's 37th vice president in 1961. He had held that office for less than three years, when John F. Kennedy's assassination thrust him into the presidency. During a joint session of Congress to present his plans for leading the nation after Kennedy's death, he said, "All that I have I would have given gladly not to be standing here today." During his administration, President Johnson promoted his vision of "The Great Society" and tackled issues such as poverty, inequality in education, voting rights and conservation. It was the conflict between North and South Vietnam, however, that took center stage both at home and abroad.

Beginning in 2009, the United States Mint began minting and issuing $1 coins featuring designs celebrating the important contributions made by Indian tribes and individual Native Americans to the history and development of the United States. The obverse (heads side) design remains the central figure of the "Sacagawea" design first produced in 2000. Sacagawea played a key role in the success of the Lewis and Clark expedition (1804-1806) that explored America's newly purchased Louisiana Territory and paved the way for the nation's westward expansion. The 2015 NATIVE AMERICAN $1 COIN commemorates the contributions of the Kahnawake Mohawk and Mohawk Akwesasne communities to "high iron" construction work and the building of New York City skyscrapers. The reverse design depicts a Mohawk ironworker reaching for an I-beam that is swinging into position, rivets on the left and right side of the border, and a high elevation view of the city skyline in the background. The design includes the required inscriptions "UNITED STATES OF AMERICA," "$1" and the additional inscription "MOHAWK IRONWORKERS."

The AMERICAN EAGLE SILVER DOLLAR'S obverse design is Adolph A Weinman's full-length figure of Liberty in full stride, enveloped in folds of the flag, with her right hand extended and branches of laurel and oak in her left. The obverse design is borrowed from Weinman's famous Walking Liberty half dollar, minted from 1916 to 1947 after President Theodore Roosevelt championed the redesign of U.S. coinage. One of the most popular designs in American history, an ever-hopeful Liberty striding confidently toward the sunrise, draped in the strength of the Stars and Stripes and carrying branches of laurel and oak in her arms to symbolize both civil and military glory, was intended to inspire patriotism. The reverse design, by United States Mint Sculptor-Engraver John Mercanti, features the heraldic eagle with shield, an olive branch in the right talon and arrows in the left, continuing the patriotic theme.

CERTIFICATE OF AUTHENTICITY

The United States Mint certifies that the coins in this product were minted and issued under authority of 31 U.S.C. § 5112(e). These coins were minted by the Department of the Treasury, United States Mint and are legal tender of the United States. The 2015 Annual Uncirculated Dollar Coin Set features the Presidential $1 Coins and the Native American $1 Coin, as well as the uncirculated American Eagle Silver Dollar. While all of the coins in this set have a face value of one dollar, the one-ounce American Eagle Silver Uncirculated Dollar is valued based on its silver content.
